

TUBES

With the ContiTube program, you can find the inner tube most suited to your needs. Depending on your tire dimensions and purpose, different sizes, types, valve types and widths are available.

All

The all-rounder for day to day demands. Available in all usual dimensions.

Light und Supersonic

Perceptible optimization of weight and rolling resistance due to thinner material. ! Light tubes generally require more frequent reinflating.

Hermetic Plus

The all-round carefree product. Designed for the most comprehensive puncture protection and air retention due to enhanced butyl content and increased wall thickness.

Freeride und Downhill

Extra strong and increased volume. Effectively protects against punctures thanks to thicker material.

TPU

Small but mighty. Highest grade of micrometer-thick TPU deployed across seven sealed layers. Suitable for road and off-road riders.
